

ABSTRACT OF THE DISCLOSURE

000322 RV1 000322 RV1 000322 RV1  
5 Buccal aerosol sprays or capsule using polar and non-polar solvent have  
now been developed which provide biologically active compounds for rapid  
absorption through the oral mucosa, resulting in fast onset of effect. The buccal  
polar compositions of the invention comprises formulation I: aqueous polar  
solvent 30-99.89%, active compound 0.001-60%, optionally containing flavoring  
agent 0.1-10%. Propellant 2-10%. The non polar composition of the invention  
10 comprises formulation II: non-polar solvent 20-85%, active compound  
0.005-50%, and optionally flavoring agent 0.1-10% and propellant 50-80%.
